Outbound	USD 19.4bn	109.7%
Industrials & Chemicals	USD 4.4bn	-24.6%

Global

Carrying forward the momentum of 4Q20, global mergers and acquisitions activity turned in a strong first quarter performance. While many themes crossed over into 2021, such as the technology sector's dominance and the continued strength of private equity, some notable shifts did occur in terms of deal size and geographic concentration of deals.

Globally, first quarter activity in 2021 reached USD 1.16tn in transactions, surpassing even the red-hot 2018 and 2019, and making 1Q21 the most active annual opening on record and one of the highest ever. Large deal values but fewer deals have led to the highest average deal value since 2006 of USD 518.7m (based on 2,243 deals with disclosed deal values).

International dealmaking shows strength. Cross-border deals were a significant contributor to overall activity, hitting a record of USD 516.6bn for first quarter activity and nearly returning to historical averages of more than 44.4% of total deal value.

The two largest deals announced in the quarter were cross-border deals that involved US targets: AerCap Holding's USD 31bn bid for GE Capital Aviation Services and the planned USD 28.6bn merger of Canadian Pacific Railway and Kansas City.

North America back with a vengeance. North America, dominated by the US, reached its highest market share in 14 years netting 54.4% of global deal value, up from 48% in 4Q20. It is a marked turnaround from 2Q20 when North America plunged to 21.5%. North America's gain came at the expense of all other regions. Save the Middle East, all other global regions lost market share. APAC ex Japan saw its market share decline to 14%, down significantly from its 37.2% share in 2Q20.

The US was also home to more than two-thirds (USD 137.8bn) of the USD 200.9bn in global IPOs in 1Q21, according to sister product Dealogic. There were 398 IPOs in the US compared to 762 worldwide. Overall, global IPO activity in 1Q21 reached nearly two-thirds of the value of all 2020 activity (USD 319.5bn on 1,592 IPOs).

SPAC space surges. Special purpose acquisition companies (SPACs) played a large part in the overall increase in IPO activity and, particularly, in the US. Year to date, more than USD 97bn has been raised by 304 SPACs globally, the figures showed.

The SPAC surge may take hold in Europe as an increasing number of the specialized vehicles are coming to market (<https://www.mergermarket.com/intelligence/view/intelcsm-7xfp6h>). M&A tied to SPACs has also been spiking, with 99 deals totalling USD 219.5bn taking place globally in 1Q21, eclipsing all of 2020, Dealogic data shows. The average deal value for SPAC transactions was USD 2.2bn for the quarter, up from USD 1.2bn in 2020.

Large deals increase even as mega deals decline. The rising buying power of SPACs may be one factor in the rise of deals in the USD 2bn to USD 5bn range. Deals between USD 2bn and USD 5bn have jumped from 19.5% of all deal value in 4Q20 to 23.6%, USD 274bn on 91 deals. Deals greater than USD 5bn in value, which surged in the latter half of 2020, declined in absolute and relative terms. Deals greater than USD 5bn represented more than 44.5% of all deal value in 2H20. In 1Q21, such deals declined to 36.4% (USD 423.4bn on 46 deals).

Private equity flexes muscles. For years, the amount of reported dry powder held by private equity has risen to ever greater levels. The COVID-19 pandemic appears to have acted as another catalyst for sponsors to deploy capital. In 1Q21, PE buyouts reached new heights with USD 296.6bn in buyouts (1,156 total deals), one of the most active quarters since 2001 in terms of deal value save 2Q 2007.

Since 3Q20, PE sponsors have deployed USD 683.5bn. That buyout surge follows several quarters of outstanding exit activity. Over the last three quarters, private equity exits have totalled USD 638.9bn in deal value, including USD 213.9bn in exits and 711 total deals in 1Q21, representing a USD 212.9bn quarterly average. That level is 140% the historical average of

USD 88.7bn per quarter since 2001.

Technology dominates, but Transport biggest winner.

Technology Media & Telecoms (TMT) continued its deal-making dominance with USD 344.8.7bn in deal value and 1,237 total deals in the space, making up 29.7% of all deal value. Year over year, the shift has been striking, with deal value jumping 247% from USD 99.4bn in 1Q20.

Nearly every sector saw increases in deal value but the Transport sector saw one of the greatest year-over-year increases. Transport deals rose 424.9% reaching USD 66.9bn and 140 deals in 1Q21 from USD 12.7bn and 170 deals in 1Q20. Energy, Mining & Utilities also turned in an impressive 248.3% increase, rising to USD 119.2bn on 373 transactions from USD 34.2bn and 303 deals.

“Carrying forward the momentum of 4Q20, global mergers and acquisitions activity turned in a strong first quarter performance”

Global Private Equity - Buyouts

- Private equity activity started 2021 with a robust buyout volume of 1,156 not far behind previous quarter's exceptional figure of 1,177 deals.** The fast-paced activity paired with a large sum of capital deployed globally, with USD 296.6bn overall buyout value in 1Q21, the highest quarterly figure since Q2 2007. This was mainly contributed by the 72 transactions valued above the USD 1bn mark, which also boosted the average buyout value to USD 575m across disclosed deals so far.
- Financial sponsors' dominance across the M&A landscape has continued to grow,** taking a 22.8% market share by volume - the highest on record - and a quarter of the overall value across global M&A.
- The exit activity remained relatively steady in the first quarter of the year as delayed processes started to materialize.** USD 214bn was generated across 711 exits to strategic and institutional players, 33.6% up in volume compared to the same period last year.
- The largest exits were Blackstone's exit from US-based Change Healthcare** in a [12.6bn acquisition](#) by UnitedHealth Group's subsidiary OptumInsight and Bain Capital's [10bn sale](#) of Brazil-headquartered Notre Dame Intermedica Participacoes to Hapvida Participacoes e Investimentos.
- US private equity activity slightly overtook Europe's buyout volume in the first quarter and recorded its highest quarterly buyout value since the global financial crisis of 2007-2008.** With 477 deals worth a disclosed USD 160.1bn, the US accounted for 41.3% of the global buyout volume and more than half of the overall global buyout value.
- Technology remained the most targeted sector by investors with 330 buyouts worth USD 80.6bn recorded in 1Q21, exceeding last year's quarterly average deal volume.** The Industrials & Chemicals space collected USD 52.8bn in buyout value, the largest quarterly figure on Mergermarket data. The record amount was driven by 14 buyouts over a billion valuation, on par with the whole of 2020. The largest among those were the [USD 6.1bn take-private](#) of Signature Aviation, a UK-based aviation services company by a Blackstone-led consortium and the [USD 6bn acquisition](#) of Mavis Tire Supply by BayPine and TSG Consumer Partners.

Europe

- **After a blockbuster final quarter of 2020, European M&A has recorded a robust first three months of the year, with a total of USD 291.3bn spent on European firms in 1Q21.** This represents a 51.4% increase by value on the equivalent period in 2020. The largest deal in Europe so far this year saw National Grid acquire UK-based utilities firm Western Power Distribution from PPL Corporation, in a deal worth USD 19.8bn announced in mid-March. This represents the only deal in Europe worth more than USD 10bn so far this year.
- **In mid-March, UK-based trading platform eToro was acquired by a special purpose acquisition company (SPAC), FinTech Acquisition Corp. V, in a deal worth USD 9.5bn, the second largest deal in Europe so far.** There have already been six acquisitions of European firms by SPACs so far this year, compared to 11 in the entirety of 2020 and five during 2019.
- **With greater confidence in the market this year, cross-border M&A has remained strong after a blockbuster second half of 2020.** Foreign investment into Europe has reached USD 134.4bn across 359 deals so far this year, accounting for a 46% share of the total 1Q21 European value and 17.5% of the deal count. This represents a sizeable increase from 2020, in which 37.1% of the value was derived from foreign investment and 16.5% of the deal count.
- **This included American Tower Corporation's USD 9.4bn acquisition of Telxius' towers division in Germany, Spain, Brazil, Chile, Peru, and Argentina, announced in mid-January.** The deal comes on the back of a blockbuster 2020 for telecoms M&A in which USD 118.8bn was spent across 126 deals – the sectors highest annual value since 2005 (USD 150.4bn) and highest annual volume since 2007 (128 deals).

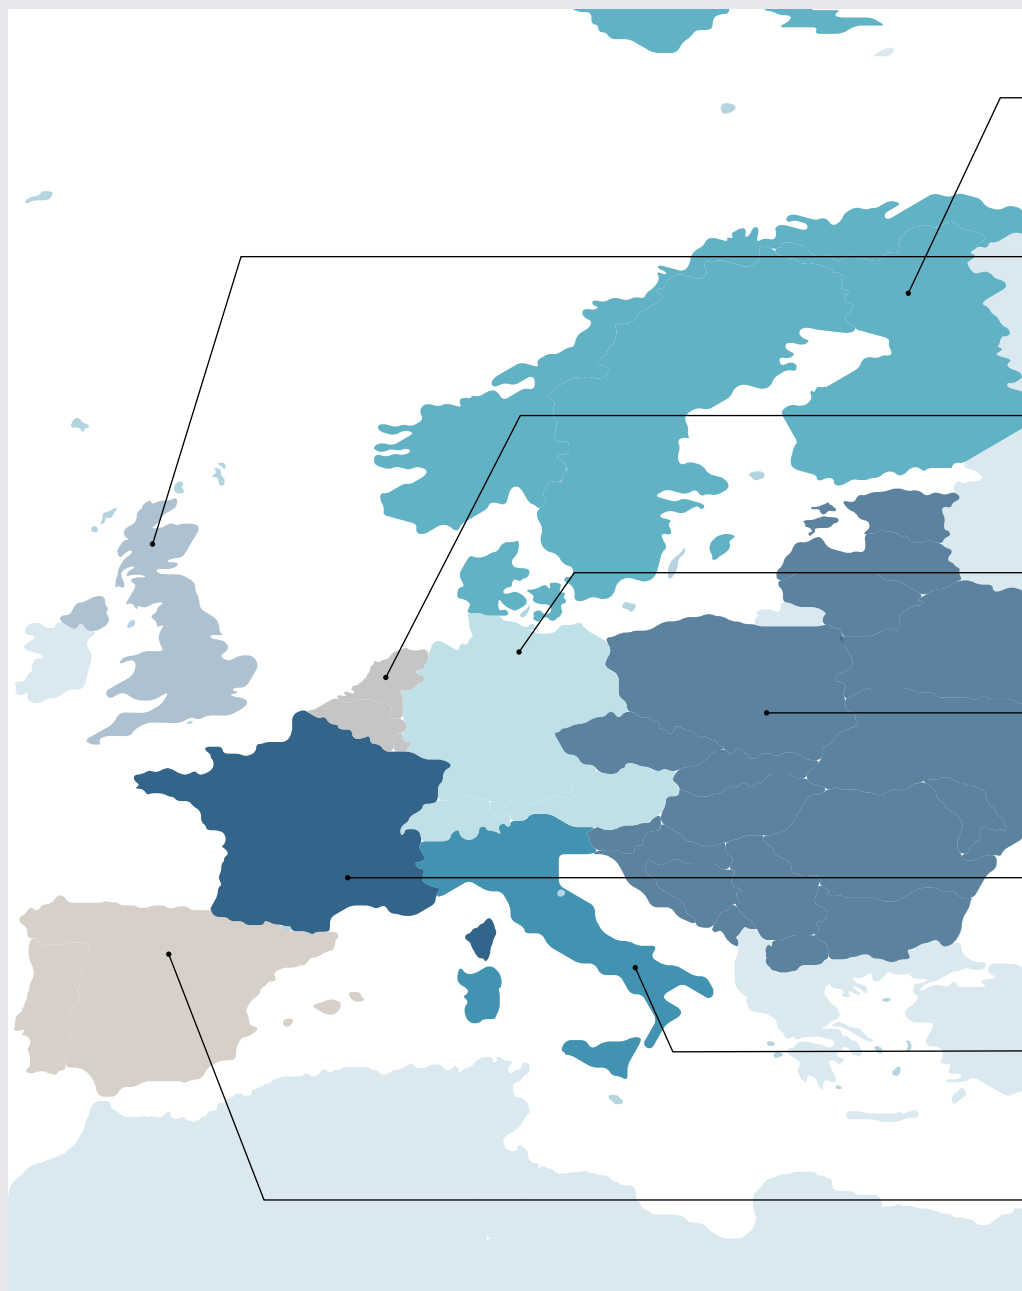

Europe Quarterly Breakdown Trend
2012 - 1Q21

- **With corporates and sponsors alike looking to invest in innovation, TMT has remained active in 2021.** A total of USD 80.5bn has been spent in the European TMT sector in 1Q21 across 471 deals, the sector's strongest start to the year on Mergermarket record, and 228.7% ahead of the 1Q20 deal value (USD 24.5bn, 386 deals).
- **Private equity firms remain a key driver of European M&A, buoyed by a healthy financing market, and extensive amount of dry-powder available to deploy.** Sponsors have spent a total of USD 75.5bn (459 buyouts) in the opening quarter of the year, its highest quarterly value since 2Q07 (USD 145.3bn) and a 21.7% increase on the first quarter of 2020. European private equity buyouts have now reached at least USD 50bn in four of the last five quarters, and activity is unlikely to slow.
- **After a slowdown in 2020, private equity take-privates have returned to the forefront, with eight such deals worth a total USD 13.8bn announced in 1Q21.** This includes the two competing bids for UK-aviation firm Signature Aviation, and the USD 3.9bn takeover of power generation firm Aggreko by a consortium consisting of TDR Capital and I Squared Capital, announced in early March. Last year, just six take-privates were conducted in the opening six months of the year, followed by 18 in the second half.
- **After the rapid increase in the final few months of the year, and a sizeable pipeline of lapsed deals which could return, there is likely to be sustained activity in the coming months.**

US

- US M&A activity remained strong in 1Q21, breaking record 4Q20.** There were at least 1,595 deals worth USD 563bn recorded in 1Q21, up slightly by value compared to the previous quarter (1,708 deals worth USD 554bn in 4Q20). For the second quarter in a row, US M&A activity by value was the highest quarterly level recorded on Mergermarket record (since 2001).
- Bolstered by the quarter's largest deal, US divestment activity hits record.** Quarterly corporate divestitures, 29 deals worth USD 50.3bn announced in 1Q21, broke its previous record set in 2Q 2007 (34 divestitures worth USD 49bn). The largest deal of the quarter (and the largest US divestiture on record) was General Electric's announced sale of GE Capital Aviation Services to Ireland-based AerCap Holdings for [USD 31bn](#). There were at least 10 divestments worth USD 10.2bn acquired by private equity buyers, led by Nestle's [USD 4.3bn](#) sale of its Nestle Waters North America unit to Metropoulos & Co and One Rock Capital Partners.
- SPAC M&A is driving activity.** While 2020 was a banner year for Special Purpose Acquisition Company (SPAC) IPO issuances and business combinations, year-to-date activity has already outpaced that record, according to data from sister company Dealogic. In 1Q21, there were 79 SPAC business combinations worth a combined USD 165bn in the US, up 25% by value compared to all of 2020. Q1 SPAC IPO issuance in the US also eclipsed FY20 activity: 298 SPAC IPOs raised USD 95bn since January, compared to 248 SPAC IPOs that raised USD 83bn in all of 2020.

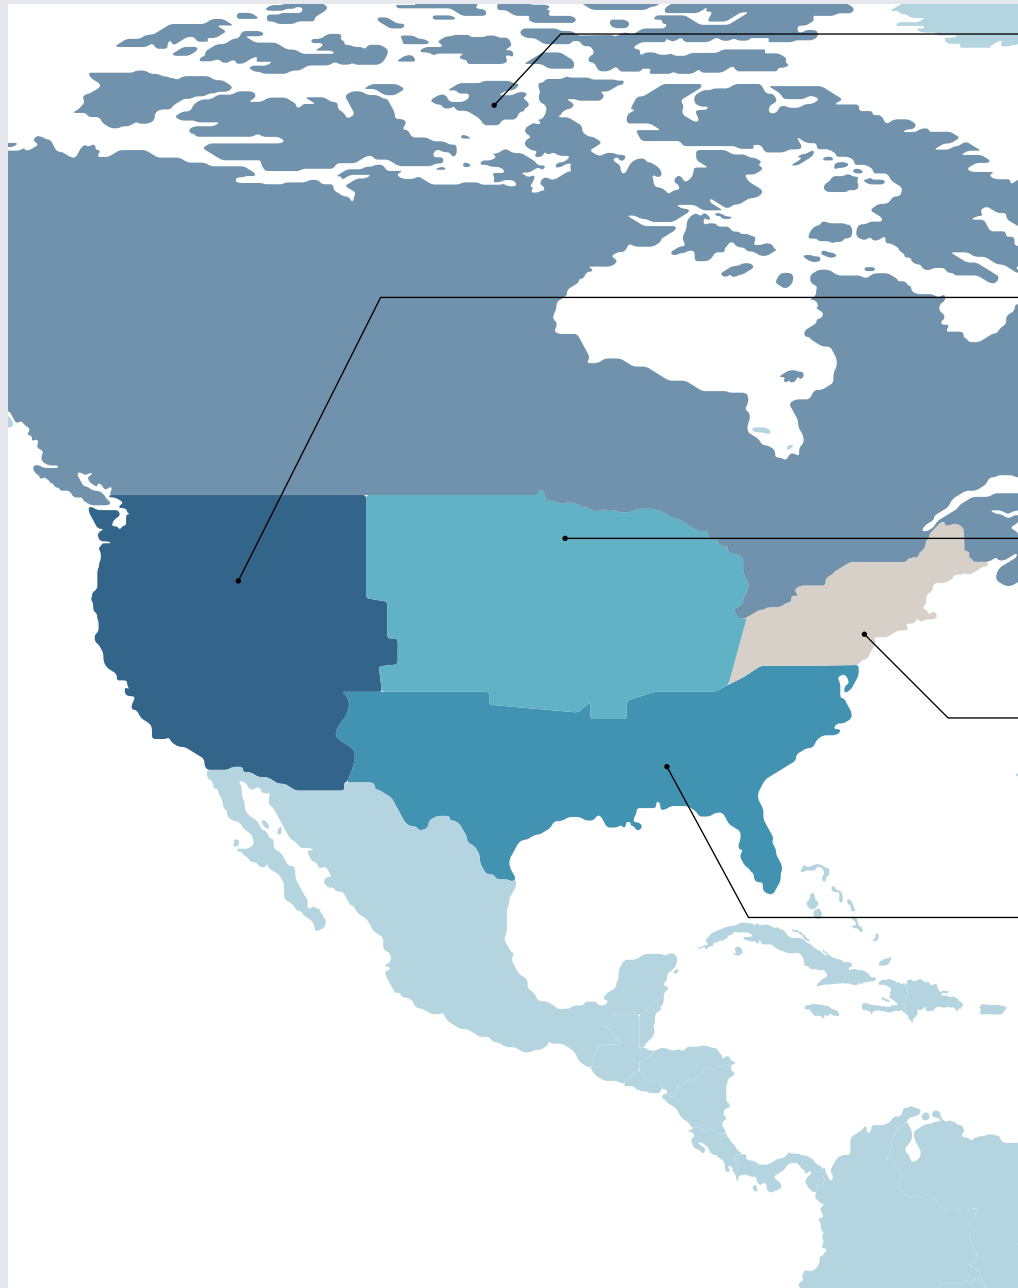

US Quarterly Breakdown Trend
2012 - 1Q21

- Financial sponsors are highly active.** In 1Q21, US buyout activity reached its second-highest quarterly level by value on *Mergermarket* record (since 2001), with 477 LBOs announced worth USD 160bn. The previous record was set in 2Q 2007, when 286 buyouts were announced worth USD 178bn. Meanwhile, there were 322 exits announced worth USD 114bn in 1Q21, marking the third quarter in a row where US exit activity exceeded USD 100bn.
- Technology M&A continued its post-Covid boom.** There were 417 tech deals worth USD 164bn announced in Q1, worth 29% of all US M&A by value. Technology has seen record quarterly activity since US M&A market began to rebound from the pandemic in 3Q20, with over USD 439bn worth of deals announced since July 2020. The largest deal of the quarter was UnitedHealth Group-backed OptumInsight's [USD 12.5bn](#) acquisition of healthcare IT provider Change Healthcare.
- Planes, trains, and automobiles draw mega deals.** Several mega deals (valued >USD10bn) were announced in the transportation and automotive sectors in Q1, led by two cross-border acquisitions. The aforementioned acquisition of GE Capital Aviation Services by Ireland-based AerCap Holdings for USD 31bn, and Canada-based Canadian Pacific Railway agreed to acquire Kansas City Southern, a US-listed railroad holding company for [USD 28.6bn](#).
- SPACs have continued to take an interest in automotive companies,** in Q1 there were at least seven SPAC deals in automotive parts and manufacturing industry, according to Dealogic data. The largest was Churchill Capital Corp IV's (CCIV) [USD 11.75bn](#) announced business combination with EV-maker Lucid Motors, and is the highest valued SPAC deal in the automotive sector.

Latin America

- Latin American M&A market continues to recover.** Deal activity in the region, 153 deals worth USD 26.9bn, is down 25% by value compared to 4Q20 (190 deals worth USD 35.7bn). Despite the decline in number of deals announced, M&A by value returned to pre-pandemic levels by value.
- Brazil and Chile see the most activity.** Latin American M&A was concentrated in Brazil in Q1, at least 111 deals worth USD 22bn were announced for Brazil-based targets. In Chile, 12 deals were announced worth USD 3.5bn. In 4Q20, there were 128 deals worth USD 25.1bn announced in Brazil, and nine deals worth USD 8.9bn announced in Chile.
- Private equity exits had record quarter.** There were 14 exits worth USD 15bn announced in Q1, the highest quarterly amount on Mergermarket record (since 2001). The largest exit of the quarter was Bain Capital's sale of Notre Dame Intermedica Participacoes (GNDI), a Brazil-based health insurer, to Hapvida Participacoes e Investimentos, a Brazil-based hospital management service provider, for [USD 10bn](#). Bain acquired GNDI in 2014 for a reported [USD 866m](#) and pursued a buy-and-build strategy, the company made at least 25 deals worth USD 1.3bn under Bain Capital ownership.
- Energy, Mining, & Utilities (EMU) continues to be the most active sector for M&A in Latin America.** At least 32 deals worth USD 9.4bn were announced in the EMU sector in Q1, the most by count of all sectors in the region. Deals in the EMU sector were led by the [USD 3.1bn](#) sale of Hygo Energy Transition, a Brazil-based LNG downstream solutions provider, by Stonepeak Infrastructure Partners and Golar LNG Limited to New York-based New Fortress Energy. Stonepeak acquired a 50% stake in Hygo in 2016.

Asia Pacific (excl. Japan)

- **M&A activity in APAC excl. Japan generated USD 163bn across 861 deals in 1Q21.** The figures are 28.7% higher in terms of deal value compared to the same period a year before – a time when the COVID-19 pandemic dealt a heavy blow to the economy and M&A activity in APAC ex Japan.
- **Dealmaking remains robust yet slower than during the peak in 3Q20** when a combination of factors – including the realization of delayed deals accumulated during the onset of the pandemic, economic recovery, accommodating fiscal and monetary policies, greater opening to foreign capital and new momentum in SOE reforms – led to a surge in transactions.
- **Increased regulation, state-led industrial policies and rising geopolitical tensions** between China and the US continue to be driving forces in shaping M&A trends across APAC ex Japan as Washington and Beijing vie for technology leadership.
- **Chinese policymakers and regulators are increasingly embracing a tougher antitrust stance** toward its tech giants – such as Alibaba, Tencent and JD.com, among others – in a bid to curtail their political and media power, control financial risks and increase innovation to improve competitiveness vis-à-vis their US peers. The COVID-19 pandemic and the fast rollout of 5G networks in mainland China are also accelerating the trends toward digitalization.
- **Deal value in the Technology** sector in 1Q21 almost tripled year-on-year to USD 35bn across 155 deals (1Q20: USD 11.9bn across 117 deals). The largest deal in the sector was the proposed take private of payment service provider China Youzan [HKG:8083] for USD 4.1bn.
- **Energy, Mining & Utilities** (USD 26.9bn; 82 deals), **Construction** (USD 18bn; 36 deals) and **Transport** (USD 15bn; 38 deals) also surged in deal value, posting year-on-year

Asia Pacific (excl. Japan) Quarterly Breakdown Trend 2012 - 1Q21

increases of 125.6%, 85% and 329.5%, respectively.

- **Construction was lifted** by Xinjiang Tianshan Cement's acquisition of four Chinese cement manufacturers for USD 15.1bn – the largest transaction in the region in 1Q20. As for energy, ReNew Power is exploring a potential merger with a US-listed special purpose acquisition company (SPAC) in a deal valued USD 7.1bn, while the largest deal in the transportation sector was the acquisition of a 51.8% stake in Kerry Logistics Network by S.F. Holding [SHE:002352] for USD 3.95bn.
- **Inbound M&A activity remains strong** – generating USD 30.6bn across 146 deals as compared to USD 14.1bn across 157 deals in 1Q20, and USD 31.8bn across 158 deals in 4Q20.
- **India's attractiveness for investment in the region** – thanks to the Sino-US trade war and its younger population – as well as China's ongoing open-up policy – which is lowering barriers to foreign investment in a wide range of sectors including financial services and telecommunications – remain key magnets for inbound M&A in APAC ex Japan.
- **India's inbound levels (USD 15.4bn across 42 deals)** – equal to 50.2% of total inbound deal value in the region – continue to outpace those of China (USD 9.4bn across 18 deals). This trend is expected to continue as Chinese policymakers mull measures to curb excessive inflow of hot money into China in order to avoid an excessive strengthening of the yuan that would reduce the competitiveness of Chinese exports and lead to financial bubbles.
- **Private equity activity is also roaring back** – especially on the exit side, buoyed by more generous valuations. PE exits generated USD 21.8bn across 54 deals – the highest quarterly value since 3Q18, while PE buyouts recorded 130 deals worth USD 26.6bn – a 79.8% increase in value compared to 1Q20 although lower than the levels recorded in 4Q20 (USD 36bn across 160 deals).

Japan

- **Japan's M&A activity was off to a steady start in 2021**, although 1Q21 value still paled in comparison with figures seen after the apparent recovery from COVID-19 in 2H20. Japan-targeted deals reached USD 15.5bn – the highest 1Q value since 2016 – across 113 deals in 1Q21, equivalent to a 1.2x uptick in value and 16.9% drop in count YoY.
- **Domestic deals accounted for the overwhelming majority** with USD 10.9bn on 105 transactions. The largest domestic deal and second largest deal by a Japanese buyer was Rakuten's [TYO:4755] stake sale to Japan Post Holdings [TYO:6178] among other buyers.
- **Inbound deals recorded a relatively low eight deals**, while deal value (USD 4.6bn) was the highest 1Q figure since 2007 (highest quarterly value since 4Q17). Private equity deals accounted for six of those on USD 3.6bn. Top deals, Carlyle's announced MBO of Rigaku and Hisense Home Appliances' [SHE:000921; HKG:00921] announced stake acquisition of Sanden Holdings [TYO:6444], exceeded USD 1bn.
- **PE buyouts were strong, logging 18 deals worth a disclosed USD 4.1bn.** Three buyouts were among the top 10 Japan deals, with Carlyle–Rigaku being the largest. Thirteen exits totaled USD 77m, which is relatively lower compared with recent quarterly value and the lowest 1Q value since 2009.
- **The dominant sector for Japan-targeted deals was Industrials & Chemicals** thanks to inbound deals, followed by Technology, the top sector for domestic deals.
- **Outbound deals recovered with USD 19.4bn across 34 deals.** While this represents more than half of the 2020 full-year value, this is no coup considering 2020 had the lowest value for outbound deals by Japan Inc over the past 10 years. It is still promising that the largest deal involving a Japanese company for 1Q21 is the announced acquisition

Japan Quarterly Breakdown Trend
2012 - 1Q21

by Hitachi [TYO:6501] of California-based GlobalLogic Worldwide Holdings, and that there have been other outbound deals by powerhouses like Renesas Electronics [TYO:6723], Sony [TYO:6758], Olympus [TYO:7733] and SoftBank Group [TYO:9984].

- **Noncore divestitures by listed household names**, which also act as catalysts for PE activity, remained a key theme. Deals would not be limited to domestic/inbound, as seen from Bridgestone’s [TYO:5108] sale of Tennessee-based Firestone Building Products Company, the largest sale by a Japanese vendor this quarter. While high-profile divestitures are being announced by players including Shiseido [TYO:4911], Showa Denko [TYO:4004], and Mitsubishi Heavy Industries [TYO:7011] (of which the former two secured PE buyers), many companies, including Daicel [TYO:4202], are also seeking acquisitions in several verticals at home and abroad while accelerating their review of noncore businesses, per Mergermarket intelligence.
- **As exemplified by Rakuten’s stake sale** and merger agreement between Matsumotokiyoshi Holdings [TYO:3088] and cocokara fine [TYO:3098], even sector leaders are more openly considering various means of integration to increase shares, diversify, and/or ink cross-sector collaborations in an ever-shrinking domestic market.
- **As Japan tries to adjust to a “new normal”**, online-offline business alliances or consolidation among players that could not make the switch to digitalization early enough may emerge in sectors like Consumer which continue to feel COVID-19 impacts.
- **Japan’s startup space is also expected to continue heating up**, per Mergermarket intelligence. Sectors to watch include deeptech, as well as B2C which has room for growth in virtual operations following the pandemic. PE investors’ increasing interest in growth capital deals could also result in startup fundraises and IPOs becoming larger.

Middle East & Africa

- **Following a strong end to 2020, M&A targeting the Middle East & Africa (MEA) had an active first three months of 2021** – reaching a total USD 32.7bn across 110 deals. This represents a 52% jump in comparison to the equivalent period in 2020 (USD 21.5bn, 85 deals) with 25 more deals conducted this year.
- **Inbound investment reached USD 24.7bn across 52 transactions in the opening quarter of the year, representing the highest quarterly inbound value since 4Q07 (USD 26.2bn).** As a result, foreign investment accounted for a 75.6% share of the total M&A value targeting MEA-based firms in 1Q21, in comparison to just 29.4% during 2020. The region saw eight deals worth at least USD 1bn in 1Q21, seven of which were conducted by foreign bidders.
- **US-based investors were particularly active, conducting 30 deals worth a combined USD 20.2bn in the region.** With economies around the world continuing to open, cross-border M&A should continue to rise over the coming months.
- **Tech has remained the most active sector in the region by both value and volume, jumping to USD 14.7bn (31 deals).** The energy, mining & utilities sector has also seen an increase by both value and volume, reaching USD 4.6bn across 18 deals so far this year.
- **A surge in private equity activity in MEA in the first quarter of the year saw both buyouts and exits soar.** Sponsors have invested a total of USD 18.3bn (26 buyouts), representing the highest quarterly value and volume on record.

China

A review of the year's local private equity and venture capital activity in China with up-to-date data and intelligence on fundraising, investments, exits and M&A.

Criteria

All data is based on transactions over USD 5m and is based on the Mergermarket's M&A deals database.

Deals with undisclosed deal values are included where the target's turnover exceeds USD 10m. Deals where the effective stake acquired is less than 30% will only be included if the value is greater than USD 100m.

Full deal inclusion criteria can be found [here](#).

Trend data: Based on the dominant geography of the target company and includes lapsed and withdrawn bids. Sector trends based on the dominant sector of the target.

Global cross-border M&A: Based on the dominant geography of the target and bidder company being in a different region.

Inbound: Global/US/Japan: The dominant geography of the target is X and the dominant geography of the bidder is any other country excluding X. Europe/Asia/Africa & Middle East: The dominant geography of the target is X and the dominant geography of the bidder is any other region excluding X.

Outbound: Global/US/Japan: The dominant geography of the bidder is X and the dominant geography of the target is any other country excluding X. Europe/Asia/Africa & Middle East: The dominant geography of the bidder is X and the dominant geography of the target is any other region excluding X.

Top deals: Based on the dominant geography of the target company.

League tables: Based on the dominant geography of the target, bidder or seller, and excludes lapsed and withdrawn bids. Private equity buyout league tables are based on advisors advising the bidder only on buyout deals with target dominant geography being the country/region and excludes lapsed and withdrawn bids. Private equity exit league tables based on advisors advising the target/seller on exit deal with target dominant geography being the country/region and excludes lapsed and withdrawn bids.

All values are in USD
M&A Trends and Top Deals correct as of 9am (GMT), 06-Apr-2021.

Cut off date 31-Mar-2021.

League Tables correct as of 1pm (GMT), 07-Apr-2021. Cut off date 31-Dec-2021.

Mergermarket is an Acuris company

In M&A, information is the most valuable currency. Mergermarket reports on deals 6–24 months before they become public knowledge, giving our subscribers a powerful competitive advantage. With the largest network of dedicated M&A journalists and analysts, Mergermarket offers the most comprehensive M&A intelligence service available today. Our reporters are based in 67 locations across the Americas, Europe, Asia-Pacific, the Middle East and Africa.
